Schaffhausen, October 2022

## Adjustment of employee contributions 2023

Dear Sir, dear Madam

The members of the Pension Fund Georg Fischer born in 2002 and older have the opportunity to change their individual savings contributions each year. You can choose between an increased, reduced and standard plan.

For the year 2023, I choose the contribution variant:

**Increased**                       **Standard**                       **Reduced**

Without your counter report, your previous savings contribution variant will continued. The respective savings contributions can be found in the regulations (A 3 Level of contributions) on our homepage [pk.georgfischer.com](http://pk.georgfischer.com).
